BOILTE EQUIPMENT LINE

Proven engineering solutions for various industries

STEAM BOILERS

Reliable steam for process applications

- ✓ Stable steam generation
- ✓ High efficiency
- ✓ Reliable and safe design
- ✓ Compliance with international requirements
- ✓ Wide application range

Pressure
up to 40 bar

Temperature
up to 450 °C

HOT-WATER BOILERS

Efficient heat for heating and process needs

- ✓ High energy efficiency
- ✓ Compact design
- ✓ Reliable operation
- ✓ Flexible application
- ✓ Easy maintenance

Hot water

Pressure
up to 16 bar

Temperature
up to 115 °C

SUPERHEATED WATER BOILERS

High-temperature performance for specialized process applications

- ✓ Operation at high temperatures
- ✓ Increased efficiency
- ✓ Reliable design
- ✓ For energy-intensive production
- ✓ Customized solutions

Superheated water

Pressure
up to 25 bar

Temperature
up to 250 °C

THERMAL OIL BOILERS

Stable and precise temperature control

- ✓ High-temperature stability
- ✓ Precise temperature control
- ✓ Reliability and safety
- ✓ For specialized industries
- ✓ Compact and efficient solutions

Thermal oil

Pressure
up to 16 bar

Temperature
up to 350 °C

APPLICATIONS

Our equipment operates in key industrial sectors

Food industry

Chemical industry

Oil & gas industry

Pharmaceutical industry

Wood processing industry

Industrial buildings
and municipal sector

OUR APPROACH

From engineering concept to reliable operation

Task
analysis

Solution
selection
