

BOILTE PRODUCT LINE

RELIABLE SOLUTIONS FOR INDUSTRIAL HEAT SUPPLY

STEAM BOILERS

Reliable steam for industrial processes

- Steam capacity up to **25 t/h**
- Pressure up to **25 bar**
- Temperature up to **400 °C**

MAIN APPLICATION INDUSTRIES

- Food industry
- Chemical industry
- Oil & gas
- Pharmaceuticals
- Pulp and paper industry
- Other industrial processes

HOT-WATER BOILERS

Efficient and reliable solutions for heating and process heat supply

- Thermal output up to **50 MW**
- Operating pressure up to **25 bar**
- Water temperature up to **180–250 °C**

MAIN APPLICATION INDUSTRIES

- Chemical industry
- Oil & gas
- Building materials production
- Wood processing
- Food industry
- Other high-temperature processes

HOT-WATER BOILERS

Efficient and reliable heat for heating systems and infrastructure

- Thermal output up to **50 MW**
- Operating pressure up to **16 bar**
- Water temperature up to **115 °C**

MAIN APPLICATION INDUSTRIES

- Heating systems
- Industrial facilities
- Residential and municipal buildings
- Greenhouse complexes
- Food industry
- Other facilities requiring hot water

THERMAL OIL BOILERS

Stable heat for technological processes

- Thermal output up to **50 MW**
- Operating pressure up to **16 bar**
- Oil temperature up to **320 °C**

MAIN APPLICATION INDUSTRIES

- Petrochemical industry
- Polymer production
- Food industry
- Building materials production
- Wood processing
- Other technological processes

TECHNOLOGIES
THAT WORK FOR
REAL BUSINESS

BOILTE
LOCAL PRODUCTION.
GLOBAL INDUSTRY.
A MORE EFFICIENT TOMORROW.
